Information for Her is a site designed and produced by women for women. Our aim is to make this an invaluable source of information, support, and encouragement for women of all ages. As Information for Her develops we see the site growing into a meeting place for women and a place where women can relax and be among supportive friends who are always willing to listen and share the good times as well as the bad. Above all, Information for Her will be about being real and not being the stereotype that so many would have us be.
