Helping your daughters survive school and college.

Meg Cabot is one of the world's leading authors in a genre that I saw one person describe as 'Chick Lit'. In other words her books are aimed at older kids and young teenagers.

Meg does more than just write books, she also has an extensive website where she shares her thoughts and a lot of good advice, with her readers. One topic that she addressed recently was how young girls can survive some of the dangers of school and college. She offers some very good advice and you can find it here at [Important Back-to-School Message](#)
