With less than three months to go till Christmas you might be wondering what are the hot presents for kids this year

It came as rather a shock when I looked at the calendar the other day and suddenly realised that we had just passed the 90 day mark to Christmas. With 10 kids, grandkids, brothers, sisters, parents and everyone else to buy for Christmas can be a big deal in this family.

Fortunately we have some of the kids and all of the grandkids already covered and the spare room is starting too look like a toy store. However, if you're still wondering what to buy for your kids this Christmas here is the 'hot 10' from Toys "R" Us:
